Does Costa Rica have a 5G network?

Liberty and Ericsson launch 5G SA network in Costa Rica, supporting digital growth across healthcare, tourism, and more. Costa Rica has launched its first 5G Standalone (SA) network, marking a significant milestone in the country's digital transformation. The deployment is part of a six-year agreement between Ericsson and Liberty Latin America.

What is a 5G base station?

A 5G base station is a fixed communication point that communicates with a single or more antenna as part of a network's wireless telephone system. It consists of a wireless receiver and a short-range transceiver that includes an antenna and analog-to-digital converters (ADCs) for digitally converting radio frequency signals.

Does Ericsson have a 5G network?

The deployment is part of a six-year agreement between Ericsson and Liberty Latin America. The network features fully native 5G infrastructure using Ericsson's dual-mode 5G Core and advanced Radio Access Network technology.
