How to boost Wind energy production in Iran?

To boost up the wind energy production, the Renewable Energy Organization of Iran (SUNA) based its new feed-in tariff policy on the German equivalent, assured government electricity sales for 20 years, and implemented a 15% tax cut for businesses using domestic components.

Why should companies invest in onshore wind energy in Iran?

The adoption of onshore wind energy with advanced technology attracts companies for high investment. Iran's onshore wind power installed capacity increased by 0.6% in 2021. In 2021, the installed capacity of solar energy in Iran was 310 MW as compared to 2020, which was 308 MW.

How much wind power does Iran have?

By 2009, total wind power capacity reached 130 megawatts. This was a result of the production of larger wind farms in more coastal and windy areas of Iran, such as Manjeel (Gilan province) and Binaloud (Razavi Khorasan Province). In 2021, Iran's total capacity of onshore wind power grew by 0.6%.

What is Iran's wind power capacity in 2021?

Iran's onshore wind power installed capacity increased by 0.6% in 2021. In 2021, the installed capacity of solar energy in Iran was 310 MW as compared to 2020, which was 308 MW. Wind energy in Iran has great potential. The 61.2 MW Sihapoush wind farm, located in the northwestern province of Qazvin, is the country's largest project.

A large wind farm, with the capacity of generating 50-megawatt electricity, was inaugurated in the east of Iran by the country's ...

Iran is home to several wind-rich regions ideal for wind energy production. Among these is Sistan and Baluchestan Province, known for its 120-day winds, making it one of the ...

Data and information about Wind power plants and their location plotted on an interactive map of Iran.

In the studies conducted, the data of 120 synoptic stations were analyzed between 1994 and 2003, and it was found that the highest annual average wind speed in Iran is related ...

As a further drive toward diversification of energy sources, Iran has also established wind farms in several
