At AKG, we are proud to be a trusted partner in the wind power industry, offering cutting-edge cooling solutions that ensure the reliable and efficient operation of wind turbines across the globe.

Continental Fan is a leading supplier of wind turbine cooling fans for nacelle ventilation, GCU (generator control unit) cooling, cabinet cooling, and tower ventilation.

Maximize wind turbine performance with Heatex's complete and customizable cooling systems for generator, nacelle and converter/ transformer cooling.

Our systems are designed to handle the unique cooling requirements of direct-drive wind power generation, providing superior cooling performance and reducing the risk of overheating.

Continental Fan is a leading supplier of wind turbine cooling fans for nacelle ventilation, GCU (generator control unit) cooling, cabinet cooling, and ...

WS Air/Water Heat Excha Available with N.C. / N.O. and changeover contacts. In combination with FLH heaters, they provide temperature control inside the control cabinet. In combination ...
